OVERVIEW

Introduction

Welcome to the ADS Annual Report for 2025-2026. During the year, we continued to deliver a comprehensive range of recovery-focused services across Dumfries and Galloway, supporting individuals, families and communities affected by alcohol, drugs, gambling, homelessness and related challenges. The breadth and quality of these services remain central to our mission of promoting recovery, improving wellbeing and strengthening communities throughout the region. Further details of each service area and associated outcomes are provided elsewhere within this Annual Report.

Core Service

Our core alcohol and drug services remained active, responsive and impactful throughout the reporting period. ADS continues to be recognised as a valued strategic partner of the Dumfries and Galloway Alcohol and Drugs Partnership (ADP), contributing significantly to local planning, service development and the implementation of national policy priorities.

Staff have maintained a strong presence within the ADP Partners Group and have actively participated in the various Medication Assisted Treatment (MAT) Standards implementation groups. Through this involvement, we have continued to help shape local service provision, advocate for the needs of individuals affected by substance use and support the development of recovery-oriented systems of care across the region.

“We continued to deliver a comprehensive range of recovery focused services across Dumfries and Galloway, supporting individuals, families and communities affected by alcohol, drugs, gambling, homelessness and related challenges.”

Talking Therapies Service

We were delighted to secure a further contract with the Dumfries and Galloway Alcohol and Drugs Partnership to deliver a specialist Talking Therapies Service for adults aged 18 years and over affected by alcohol and drug-related issues. The contract was awarded for an initial three-year period in April 2025, with the option of a further two-year extension. The security and financial stability provided by this longer-term contract have been particularly welcome, enabling continued investment in staff, service development and quality improvement.

Demand for the service remained exceptionally high throughout the year. Between 2025 and 2026, the service received 361 new referrals, compared with 269 referrals during the previous reporting period, representing an increase of more than 34 per cent. This significant growth reflects both the ongoing need for specialist therapeutic support and the positive reputation the service has established within local communities and among referral partners.

The service continued to offer flexible methods of delivery, enabling individuals to access support by telephone, online and through face-to-face appointments. This blended approach has helped maximise accessibility and ensured that individuals can engage in a way that best meets their needs and circumstances.

In addition to alcohol and drug-related support, the service also provided specialist assistance to twenty-one individuals experiencing difficulties associated with problem gambling. This work was delivered in partnership with RCA Trust and GamCare and ensured that those affected by gambling-related harms could access timely and effective therapeutic interventions.

COSCA Recognition

Following the successful evaluation of the Talking Therapies Service in early 2023, we committed to pursuing formal accreditation through the COSCA Recognition Scheme.

The Recognition Scheme provides COSCA Member Organisations with an opportunity to demonstrate how they uphold COSCA's nine Ethical Principles and to evidence the positive impact their services have on the communities they serve. Achieving recognition reflects a commitment to quality, accountability and continuous improvement in counselling and psychotherapy practice. We successfully achieved COSCA Recognition in January 2024. Following a further evaluation in January 2026, the Company was pleased to receive confirmation that it continues to meet the required standards and remains compliant with the principles and expectations of the scheme.

The field of counselling and psychotherapy continues to evolve rapidly. During the year there has been increasing professional interest in the use of Artificial Intelligence (AI) within therapeutic settings. While still an emerging area of practice, we are monitoring developments carefully and will continue to consider both the opportunities and ethical implications associated with the use of AI technologies within counselling and mental health services.

"We successfully achieved COSCA Recognition in January 2024. Following a further evaluation in January 2026, the Company was pleased to receive confirmation that it continues to meet the required standards and remains compliant with the principles and expectations of the scheme."

Housing Support Service

Our existing contract to deliver Outreach Housing Support Services for adults aged twenty-six years and over was extended for a further twelve months, enabling the continuation of an important service for some of the most vulnerable individuals within Dumfries and Galloway.

Demand for housing-related support remained high throughout the year. Between 1 April 2025 and 31 March 2026, the service received 228 referrals. The continuing high number of individuals presenting as homeless across the region highlights the ongoing challenges faced by local communities and reinforces the importance of accessible housing support services. Throughout the year, we continued to review and develop the service to ensure that individuals received effective, person-centred support. Positive outcomes achieved by those engaging with the service were recorded across several key areas, including:

- Accommodation and housing stability
- Physical and mental health
- Safety and personal security
- Social and economic wellbeing

These outcomes demonstrate the value of sustained support in helping individuals address immediate housing concerns while also improving wider aspects of their lives.

Looking ahead, Dumfries and Galloway Council intends to award new Outreach Housing Support contracts from April 2027. Consultation exercises involving service users, provider organisations, staff and other stakeholders are planned during the coming months and will help shape future service specifications. We will actively participate in this process and hopes that the tendering exercise will be completed by the end of 2026.

Being There Family Support Service

We were also successful in securing a further contract with the Dumfries and Galloway Alcohol and Drugs Partnership to deliver the Being There Family Support Service. This specialist service supports adults aged 18 years and over who are affected by a loved one's alcohol or drug use.

The contract was awarded for an initial three-year period in April 2025, with the possibility of extension for a further two years. The award of the new contract provided welcome stability and enabled the recruitment of an additional team member – Aislinn McLaren - strengthening the service's capacity to meet demand and expand support opportunities for families.

During 2025–2026, the service received forty-one new referrals from family members seeking support. In addition to one-to-one interventions, the year saw the successful development and expansion of family support groups, creating valuable opportunities for peer support, shared learning and reduced social isolation.

The Being There team continued to play an active role in community development initiatives across Dumfries and Galloway. These wider community benefits form an important component of the service and contribute to raising awareness, reducing stigma and strengthening support networks for families affected by alcohol and drug-related issues.

AXS Recovery Fund

The AXS Recovery Fund, administered by ADS on behalf of the Dumfries and Galloway Alcohol and Drugs Partnership, continued to provide vital support for both individual and community-based recovery initiatives throughout the region.

Funding distributed through AXS has made a significant contribution to the development, growth and sustainability of Recovery Communities across Dumfries and Galloway. These investments have enabled people in recovery to access opportunities that support wellbeing, social inclusion, personal development and long-term recovery outcomes.

Additional financial support from the ADP during 2025–2026 was particularly welcome and enabled further development of the programme. During the year, members of the AXS Partnership Group dedicated considerable time to reviewing and updating both the guidance documentation and application processes to ensure that funding remains accessible, transparent and responsive to community needs.

We were also delighted to secure funding to develop a new AXS for Families initiative. This programme aims to extend recovery-focused funding opportunities to families affected by substance use and is expected to be launched during 2026.

Plans for Future Periods

We remain committed to continuous improvement, innovation and sustainability. Key priorities for the forthcoming period include:

- Preparing and submitting tenders for the new Outreach Housing Support contracts;
- Working towards re-accreditation through the Investors in People framework;
- Continuing the evaluation and development of all services to ensure quality and effectiveness;
- Developing and launching the new AXS for Families programme;
- Reviewing and updating organisational policies and procedures, including those required in response to the Employment Rights Act 2026; and
- Supporting staff development through ongoing training, professional learning and the pursuit of formal qualifications.

We will also continue to work collaboratively with partner organisations, stakeholders and local communities to strengthen recovery networks and improve outcomes for individuals and families across Dumfries and Galloway.

Finally

We would like to thank our staff for their significant contribution to ADS. We continue to deliver quality services for the vulnerable people who need our help and support, none of which would be possible without our great team. Our thanks also to the ADS Charity Trustees for their help and support.

We are also very grateful for continued financial support and confidence from our commissioners, Dumfries and Galloway Council and Dumfries and Galloway Alcohol and Drug Partnership.

Special thanks to Janice Henderson and Laura Payne for their assistance with the preparation of this year's Annual Report, and to Katy Hoose of KC Creative for the report's design.

A Year of Stability, Growth & Impact

ADS entered the year with renewed confidence following the award of a three year contract—extendable by a further two years—from the Dumfries and Galloway Alcohol and Drugs Partnership. This contract secures the delivery of specialist Talking Therapies for adults aged 18+ affected by alcohol or drug-related issues, providing both continuity and financial stability.
Alongside this core work, ADS continued to support individuals affected by problem gambling, working in partnership with RCA Trust and GamCare to deliver specialist interventions.

By the Numbers

Activity Summary 2025–2026

- 361 individuals accessed support for alcohol and/or drug-related concerns
- 21 individuals sought help for gambling-related issues
- 100% of clients were seen within 21 days of referral

Referral pathways remained steady, with most clients signposted from treatment and recovery services across Dumfries and Galloway. Gambling referrals were primarily received from GamCare and RCA Trust. This collaborative approach ensures clients experience a seamless, well supported journey into the most appropriate therapeutic support.

Client Outcomes

Meaningful Change, Measurable Progress

- 95% of clients reported significant improvement in their substance use
- 97.5% provided positive feedback
- 89% engagement rate

The quality of engagement and client satisfaction remained exceptionally high—demonstrating the continued effectiveness of therapeutic intervention.

Voices of Recovery

Client Reflections

These personal reflections highlight the power of consistent, compassionate therapeutic support in helping individuals rebuild confidence, resilience, and hope.

"Having someone to talk to helped negate the feelings of loneliness... It has been a pleasure working with Debbie."

"Everything has been so positive... I would recommend the service for anyone who is struggling."

"The service has been invaluable to me in my recovery process... Without the service I don't think I would have been able to break the circle I was in."

TALKING THERAPIES SERVICE UPDATE

Quality & Professional Standards

COSCA Recognition Scheme

Following a successful evaluation in 2023, ADS pursued accreditation through the COSCA Recognition Scheme, which recognises organisations that uphold COSCA's nine Ethical Principles and demonstrate meaningful community impact.

ADS achieved Recognition in January 2024, and following reassessment in January 2026, continues to meet the required standards.

Growing interest in AI in counselling reflects a rapidly evolving field that may shape future therapeutic practice.

Looking Ahead

ADS will focus on continuous service improvement, ensuring support remains responsive, accessible, and effective for individuals, families, and communities across Dumfries and Galloway. Regular evaluation, service-user feedback, and the implementation of best practice will inform ongoing development.

Investment in staff development will remain a key priority, with continued emphasis on training, professional learning, and staff wellbeing to maintain a skilled and motivated workforce capable of meeting emerging challenges.

We also continue to strengthen partnerships with statutory agencies, recovery partners and other stakeholders, Through collaboration and shared commitment, ADS aims to sustain positive outcomes and contribute to healthier, stronger, and more resilient communities across Dumfries and Galloway.

HOUSING SUPPORT

Contract Update

We have successfully completed the first contract add-on and are delighted to have been awarded a second year of funding and delivery. We continue to work closely with our commissioners, Dumfries and Galloway Council, maintaining regular communication and structured quarterly meetings to review progress and outcomes. The service remains extremely busy, supporting people who are at risk of eviction, living in temporary accommodation, or experiencing homelessness for the first time following relationship breakdown.

Over the past year, we received 228 homelessness referrals:

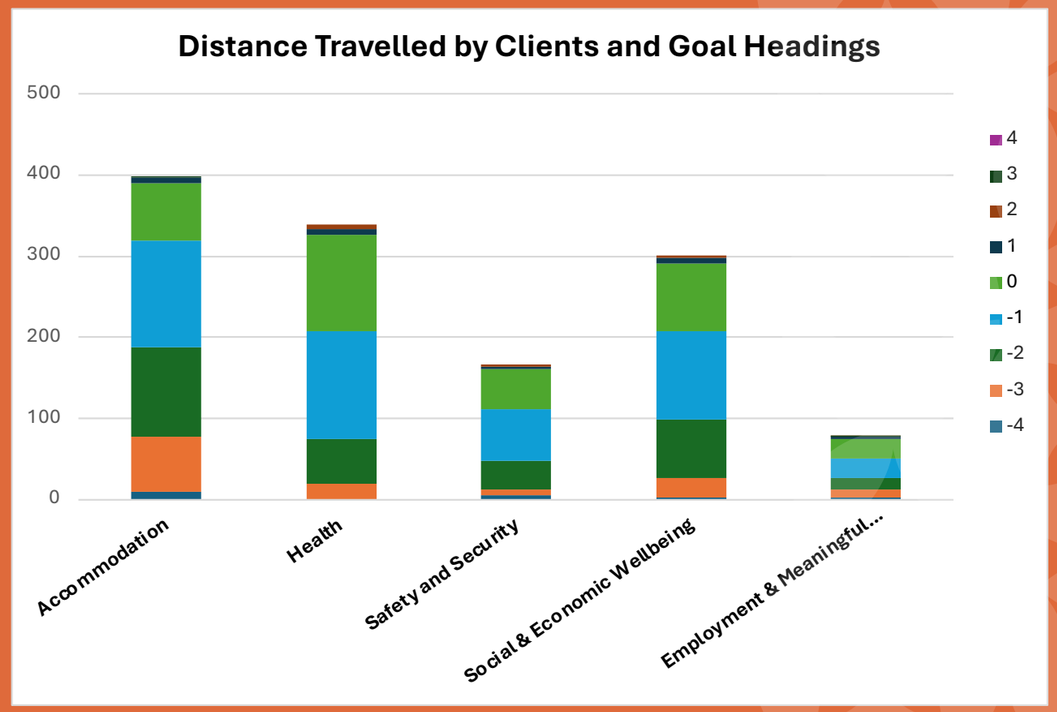

- 165 male
- 63 female
- 79 re-referrals

Re-referrals may relate to issues such as release from prison or difficulties sustaining a tenancy following a previous case closure. Where appropriate, we can reopen support within 12 months without requiring a new referral. We welcome re-referrals and aim to make it as easy as possible for people to access support again when they need it.

The People We Support

We are continually looking for ways to improve the support we provide. We record positive outcomes and the progress people make while using the service. As shown in the chart below, we achieved positive outcomes across:

- Accommodation
- Health
- Safety and security
- Social and economic wellbeing

HOUSING SUPPORT

Service users have been very generous with their feedback. We received a 99% satisfaction rating, which we are extremely proud of. Below are some of the comments shared about the service:

"Everything you do for us is so great. You always think of us, ensure we have the best advice, and support us with all our problems. Thank you for always being there."

"Your support is so helpful, and you are great to chat to and listen to me going on. I am very lucky to have you as my support person because I know how much you are trying for me."

"Really good care and support. I really like you coming and all you have done for me."

"You are great at keeping in touch with me and helping give me advice on problems I have."

"Thank you for taking me back on support. I feel safe with you."

"Thank you for everything you've done. You have been the only light guiding me through my darkest times. You certainly deserve a medal."

"It has been great to have someone who knows their stuff to help me keep my home."

"You are the only person I have ever engaged with because I feel you treat me like a person and do not judge me."

"I really thank you for getting me the full ADP through your appeal and fighting for me."

"You have helped me through being homeless and are still going to help me settle into my new home."

"It helps me to deal with stressful situations and meetings. I learnt how to put up curtains."

"You always tried to accommodate me with the support and assistance I asked for. You were always there when I needed help."

"You have gone above and beyond and always helped me when I needed it."

"Consolation, answering everything, guiding me — everything I ask you. 100% satisfied and happy."

HOUSING SUPPORT

Staffing

We continue to have a team of 13 staff members across full-time and part-time roles.
Reave returned in December following maternity leave, and we are delighted to hear that her daughter is doing well.

Two staff members have been working towards their SVQ 3 qualification. One member of staff has now achieved the qualification, which is required for registration, while the other is close to completion. Congratulations to both on their hard work and achievement.

Staff continue to secure funding and resources for service users, and I am grateful for their ongoing commitment to ensuring people receive the support they need. This work is becoming increasingly difficult as services and resources continue to close or reduce, but we continue to do our best to support individuals effectively.

I am extremely proud of what the team achieves. They ensure that service users are listened to, supported, and never judged.

Below is one service user's journey that demonstrates why housing support matters:

- Presented as homeless, without benefits or a bank account, and was living in temporary accommodation with no food, income, or utilities, while also using drugs.
- Staff arranged foodbank support and additional assistance through Lemon Aid.
- Supported the individual to claim Universal Credit, obtain identification, open a bank account, and manage their online journal and account independently with guidance.
- During periods in prison related to anger and emotional difficulties, staff provided court support and helped the individual manage breaks during proceedings.
- Supported an application for Limited Capability for Work, after which the individual received their first tenancy offer.
- Payments and budgeting arrangements were set up to help them manage independently.
- The individual attended and benefited from an anger-management course.
- Staff supported both the individual and his fiancée during her pregnancy while Social Services were involved. There is now no ongoing Social Services involvement.
- The individual is currently financially stable, drug-free apart from cannabis use, has not reoffended for over two years, and has re-engaged positively with family, including two young children.
- He regularly credits Housing Support for helping him achieve this progress and continues to express gratitude.
- Support ended successfully as all identified outcomes had been achieved.

This is just one example of the life-changing work our Housing Support team delivers. I am incredibly proud of the service, and the difference staff continue to make every day. Keep up the excellent work.

Being There – Family Support

Family Support is a well-established and valued part of ADS. The Being There team provides both one-to-one and group support for family members affected by a loved one's problematic alcohol or drug use. We offer practical and emotional support within a safe, welcoming environment, helping individuals reduce the social isolation and stigma they often experience. Through compassionate support, we help people develop coping strategies, rebuild confidence, restore hope, and improve their overall wellbeing.

The Being There team works flexibly across the Dumfries and Galloway region, using a hybrid approach to ensure support is accessible to families wherever they are based. We are delighted to have secured a new contract and look forward to continuing and expanding our support to families across the region.

Staff and Development

This year, we successfully recruited a new Family Support Worker, Aislinn McLaren, who joined the team in June. I would like to thank Morag and Lisbeth for their support throughout the recruitment process, as well as the two family members who participated and provided valuable feedback. Aislinn has taken responsibility for the Nithsdale area while also offering additional support across the wider service where needed.

Throughout her first year, Aislinn, Morag and Lisbeth attended a wide range of outreach and community events across the region. Alongside this, the team has worked hard to establish and strengthen local monthly support groups. After a lengthy process, Morag successfully established a group in Stranraer — a fantastic achievement that reflects her persistence and dedication. Well done, Morag.

Aislinn has also actively promoted groups in Sanquhar, Thornhill and Kelloholm. While attendance has not yet developed as hoped, the team remains committed to continuing promotion and engagement within these communities.

Lisbeth continues to have monthly meetings in Dumfries which continues to be a great success. It is great to see the Dumfries group doing so well.

Outreach and Training

The Being There team regularly attends community events, awareness campaigns and professional development training throughout the year. These opportunities help strengthen partnerships, raise awareness of family support services, and ensure staff continue to develop their knowledge and skills.

Events and activities attended included:

- Pop-Up at MHTC
- Pop-Up at DGRI
- Alcohol Awareness Week
- Practitioners Forum
- International Overdose Awareness Day
- Prison Pop-Up Visit
- Drop-In Sessions in Thornhill, Sanquhar, Kelloholm, Stranraer and Dumfries
- Public Protection Week

Training and development opportunities included:

- Contextual Safeguarding
- Domestic Abuse in Rural Communities
- Violence Against Women and Girls Partnership
- Trauma and Substance Use Training
- Human Rights and Health Inequalities Workshop
- Alive to Thrive – Mobilising Scotland to be Recovery Orientated (NHS Healthcare Improvement Scotland)
- The Family Support Podcast – "You're Not Alone" https://dgadp.co.uk/breaking-the-stigma-adp-podcast/

These are only some of the many events and training opportunities undertaken throughout the year, alongside the team managing busy and demanding caseloads.

BEING THERE FAMILY SUPPORT SERVICE

Families Feedback

Receiving feedback from the people we support is always greatly appreciated and highlights the importance of the Being There service. Some comments shared by family members include:

"The support was just what I needed. It helped me see things from a different perspective and explained things I hadn't considered before. Nothing was too much trouble for my support worker."

"I liked the fact that I could talk without being judged. I had heard many horrible comments about my son and wished people were more sympathetic."

"Very good service — the only person helping me right now. Brilliant at helping."

"Your advice and kindness were invaluable to me at a time when I really needed someone to listen."

"My support worker was the hand in the dark when I had completely lost hope. I will forever be grateful for her and for Being There."

"Being There is lifesaving. It gives families a chance to be understood in a world where there can often be judgement, isolation and stigma."

"My support worker was empathetic, kind and reassuring during a very difficult period."

"It feels like talking to a friend. I can speak openly without feeling guilty or burdening others. It's been a lifesaver."

"I was at a critical point in my life, and now both my son and I are doing so much better. I only wish I had known about this support sooner."

"It helped me understand that I am not responsible for his drug use and that he needs to make changes himself."

Conclusion

I am extremely proud of the work carried out by the Being There team. Their compassion, commitment and professionalism make a significant difference to the lives of families across Dumfries and Galloway. Every day they remind people that they are not alone and that support, understanding and hope are available. Well done to the whole team for the excellent work you continue to deliver.
